WELCOME TO OUR **FIFTH** ON THE FARM *angus* BULL SALE

MONDAY APRIL 2, 2012 • 1:30 PM • AT THE FARM, WAWOTA, SK

Guest Consignors: Rockin Ox Ranch & Oakwood Grange Angus

We welcome you to our 5th "On the Farm Bull & Female Sale."

WOW Bull Sale Season here again, where did this past year go!

First of all we would like to thank all the bidders and buyers of our genetics in the past year, without you people we would not be able to continue in this industry. We appreciate all of you, THANKS!

Well I will refer to this set of calves as the survivors as they have seen it all, one of the worst winters I can remember for cold and snow (some of our offerings ears can attest to that) one of the worst 2 day storms that anyone in our corner of the world can remember on April 29&30, to the wettest springs we have ever had! Then one of the best summers and falls that one can imagine and now a fantastically warm winter that has been a dream to live and work through. Only in Saskatchewan can you experience it all!

We believe strongly in the Angus cow and believe the performance of our cattle must be generated by the strengths and abilities of the mother cow with a lot less reliance on the feed bucket to achieve that performance.

We hand feed our bulls a 14% pelleted ration with mineral and vitamin package and free choice processed hay with a targeted 3lb. Per day gain to insure the proper health for a breeding bull.

We remind you that our sale is a video sale and a little more homework maybe needed to insure your proper selection. You should score more bulls prior to the sale to ease your mind when it comes to the sale ring. If we can help in any way with this process, we would be more than happy to help you.

Our offering has some very good individual bulls that we feel very strongly about. Our female offering is very deep in quality and have been raised by some of the very best young cows we own.

In our personal lives we again are proud of our life and especially our daughter Erika's achievements. In June she convocated from the University of Regina with a Degree in Business Administration, majoring in accounting and a minor in Economics and was quickly employed by Farm Credit Canada in Regina. Then in October she purchased a home in Regina but still commutes home on weekends to help out. **CONGRATS ERIKA!**

Once again we welcome Clint, Shelli Oxtoby and their young girls as guest consignors to our sale, we really enjoy working with this young couple. And this year we welcome Martin & Jane Penfold as guest consignors as well with an offering of three bulls. Martin has produced our video & DVD over the last 4 years but he also has a small group of Angus cows, a number of them he has purchased from us.

We hope you can join us on APRIL 2. Come early and join us for lunch and stay after the sale for some Eastondale hospitality.

If you have any questions at all, please give us a call or anyone of our sale staff as Rob, Bob, Shane and Chris have all been through the bulls and heifers and would be glad to answer your questions as well.

Yours Sincerely,
Dale, Shelly & Erika

P.S. Our sale barn will have heat but the bulls are penned outside, so please dress accordingly.

CONVOCATION - UNIVERSITY OF REGINA
DEGREE IN BUSINESS ADMINISTRATION
MAJORING IN ACCOUNTING & MINOR IN
ECONOMICS CONGRATULATIONS ERIKA.

OBI Welcome

Welcome to the Kenosee Park Hills in South East Saskatchewan, one of the beautiful roughage producing regions in Canada. From here many great stockmen have evolved over the years, their expertise has evolved through necessity. With livestock being the agriculture stable, these folks have learnt to understand beef cows. Who better would you like to source your genetics needs from than producers in this area.

Eastondale is a multigeneration Angus operation headed up by Dale & Shelly with Erika being the young force ever pushing forward. Eastons are involved in Angus activities of all kinds serving the fraternity from Angus boards to volunteer functions. Erika is one of the premium CJAA members and served at the CJAA Ambassador – Congratulations.

The cattle program follows in terms of a functional working cow herd; not unlike the people who raise them. The cow families at Eastondale have evolved to become highly recognized; headed up by the great Forever Lady 9136. 9136 produced a host of great progeny including Eastondale Break Away 32'07 who became the Reserve Champion Bull at the WAF 2009. This year's sire roster is headed up by Break Away, Dryland Max and a host of other leading bulls. Also please do check out the bulls from the guest consignors, Rockin Ox Ranch and Oakwood Grange Angus.

Come early, view the offering as you will again be bidding on these bulls inside while on video. And yes do not miss the special heifers being sold. These ladies do make functional, hard working cows.

Once again do come and enjoy the great dinner, the Angus offering and great Angus fellowship. The cattle industry is on a high being prepared with a superior product will pay more dividends than ever. If you are unable to attend, please do not hesitate to call anyone of the sales staff or the consignors directly.

Rob Holowaychuk, OBI

Dale, Shelly & Erika Easton

Rockin Ox Ranch

Box 442 Whitewood, SK S0G 5C0
Ph: (306) 434-7207

Welcome to the 5th annual Eastondale on the farm bull sale! We would like to thank our past buyers as well as those of you who are considering our genetics this year, as your support is greatly appreciated. We would also like to thank the Eastons for once again giving us the opportunity to be a part of their bull sale. It is always a pleasure to work with them.

We believe that a good bull starts with a good maternal foundation and as we build our small herd, we take great pride in this philosophy. We continue to invest our time and resources into the best females available to us. With our busy work and family schedule, it's important to have self sustaining, low maintenance cattle. Our cows winter graze on banked grass until the first week of January, and yet they are fat and sassy when they come into calve. Our calves are never crept fed and our cows only get grain as a treat. We feel that this management system gives us the most accurate data as to what the true ability of our cows is. We believe that we are raising cattle that work for the producer and the feedback we are getting from past buyers is reflecting that as well. We look forward to helping you select bulls that will fit into your herd and thank you for the opportunity to be a part of your program. If you have any questions about any of the sale bulls or a request for a DVD please feel free to contact us at any time. We look forward to seeing you on sale day for a good visit, great food and a refreshment or two.

Clint, Shelli, Georgia & Ruby Oxtoby

- A very complete bull with lots of top and rib and an excellent foot
- A bull with a very strong pedigree
- His dam is a tremendous Iceberg daughter that we purchased out of the Forsythe Dispersal in 2009
- Geis Max was used extensively and sires cattle that are sound, functional and easy doing
- Maxed Out is a unique individual that will only get better as he matures
- Could be used on heifers

- A bull with lots of power, performance, and length
- His dam is a deep, correct, powerful female with lots of milk
- One of the youngest bulls in the sale
- A long, smooth, clean fronted bull that will show calving ease on cows

Oakwood Grange Angus

Martin & Jane Penfold
 Box 25 Manson, MB R0M 1J0
 Ph: (204) 722-2036

I came to Canada in 1975 to work for Clark Lewis, who farmed near Vandura. As a young man who was desperate to farm on his own, it was a great opportunity and one that changed the future of our lives. Several years later we had a chance to rent the Bobby Watton farm, north of Kelso. The same spring, Edgar Lewis sold us his herd of Black and Red Baldy cows, the start of our involvement with the Angus breed.

Jane and I now live, and farm, close to the community of Manson, some 10 miles East of Moosomin. Our 3 girls have all grown up and left home and are following their own careers. Ceri as a teacher, Bethan works in Human Resources and Katherine as a singer / songwriter.

We have nearly always involved the Angus breed in our commercial cows. A number of years ago I had the opportunity to buy some registered Angus cows from the Ottman dispersal and later from Eastondale Angus. My interest has been in following breeding lines that are more traditional to the Angus breed and I have tried to build my herd with easy keeping, moderate sized cows. The Right Time bull, that I was able to buy from Dale several years ago, has given me so many quality heifers. The 3 bulls I have on offer at this years sale are all sired by Eastondale Right Time, a long, thick bull with the strong maternal genetics to help you build the right type of females.

I really enjoy the challenges with a purebred operation and the world of genetics that are on offer to us. It's an interesting time to be involved with the cattle industry in North America and I appreciate the chance to work with the experience and knowledge at Eastondale Angus. Good luck to you all in 2012, it's promising to be an interesting year in farming.

Martin & Jane Penfold

We would like to take this opportunity to thank the people who help us throughout the year. The family and neighbors who helped do our chores through the various shows and sales we attended and all the kids who worked for us at the shows and sales we participate in. Also thank you to all those that help make our sale possible. We don't dare list any names, you guys know who you are!
THANKS AGAIN!!!!
THANKS to the bidders and buyers who have supported the Eastondale program and made our success possible!

BULL WARRANTY

We guarantee to provide you with a sound, fertile bull capable of servicing a reasonable number of cows. In the event that your bull is a non-satisfactory breeder the seller will not, under any circumstances, be responsible for more than the original selling price of any bull or female sold in the sale. The consignors will not provide replacement or credit for physical injury or mismanagement. Therefore we stress the importance of insurance on your bull. An insurance agent will be available on sale day.
